TYPE OF REQUEST

LUAR (Land Use Action Review) Certificate of Compliance Planning Review Zoning
 Other _____

Location: District: Bapchule Subdivision Name: BASF / Bayer Crop Science Cotton Seed Facility
Lot #: _____ Allot #: _____ Township: 4545 Range: 3E Section: 1

BRIEF EXPLANATION OF REQUEST

1. BASF is replacing the cotton lint bunker for loading trucks with an improved environmental containment. This is to reduce personnel exposure, particulate emissions, and risk of fire from combustible cotton fiber. The facility is outside of the plant buildings and will require excavation to build new foundations. Total project cost is \$3,400,000, installation labor is \$1,170,985

2. BASF is working with GRICUA to replace and relocate a GRICUA owned transformer from inside the cotton seed facility to a location on GRIC tribal lands. This relocation is to meet electrical safety guidelines and avoid a possible fire. BASF will install wiring via an underground duct bank (on BASF and GRIC land), and then via conduit into BASF facility to resupply power. Total project cost is \$513,000, installation labor is \$90,732

Property is on lease # BL00000082
Revolution Industrial will be Contractor on behalf of BASF
